touch and feel

Touch and feel paper once more.

Today, at a time when we have few chances to touch paper,

we'd like you to feel it with your five senses.

“mt” has added new textures to its lineups,

and we're also seeking out more richly expressive masking tape.

Lisa Larson

Born in 1931 in Härlunda, in the Småland region of Sweden. She studied ceramic art at an art school in Gothenburg. After graduating, she was discovered by Stig Lindberg, and she joined the company Gustavsberg, where Lindberg was working as an art director. Larson built the golden age of Swedish ceramic art. In 1979, along with Stig Lindberg and Karin Björquist, she retired from a 26-year career at Gustavsberg as a designer representative of the company. During that time, she handled up to 300 works.

After leaving the company, and after being active as a freelancer, she opened her own ceramic studio in 1992. Collectors of her work are rapidly increasing not only in Sweden but around the world. She holds exhibitions all over the world and continues to actively create even now. Lisa Larson is an experienced older female artist who thinks of the cutest things in the world and is a representative ceramic artist of Sweden. In a forest slightly away from the city center, she continues to create.

OTTAIPNU®
DESIGNED BY MASARU SUZUKI

OTTAIPNU

OTTAIPNU is a textile brand developed by Masaru Suzuki since 2004. It was started with the theme of "Beautiful colors and patterns, which are not always necessary, are like vitamins penetrating people's hearts."
Focused on brightly colored print textiles, the collection is developed with the overflowing charm of the materials themselves, and includes items such as umbrellas, bags, towels, and handkerchiefs.
In recent years, the brand provides not only textile designs, but also designs centered on colored patterns for various settings, such as furniture and architectural spaces.
The colors are viscerally beautiful, the patterns are charming, so the instant they catch your eye you can experience things that captivate you. The brand strives for designs that evoke these kinds of feelings.

THE ORIGINAL
MORRIS & Co
FOUNDED BY WILLIAM MORRIS IN 1861

William Morris

William Morris(1834-1896)William Morris, the great designer, poet, thinker and craftsman, was also known as the father of modern design in the latter part of 19th century in England. Morris found great values in the "pleasure of craft making" and the "beauty of natural materials," and this belief of his became a movement that spread throughout the world. Before long, it reached Japan in the Taisho period as a folk craft movement. About 120 years have passed since William Morris's death, however, the "belief" that he left has been inherited wholeheartedly and his excellent designs and styles survive to this day in Morris & Co.'s interior decor, along with an aesthetic strategy. It is created continuously and distributed around the world. It seems that his quote, "Have nothing in your house that you do not know to be useful or believe to be beautiful," is still meaningful to us living in the present day.

Kapitza

Kapitza is the creative studio of sisters Petra and Nicole Kapitza, who share a passion for colour, patterns, mathematics and nature. The studio is collaborating with a wide range of international brands across the worlds of fashion, interiors, cosmetics, product design and publishing. Their clients include Comme des Garcons, Gucci, Clinique, USPS, TeNeues and IKEA.Kapitza have gained a global following for their innovative pattern art books which showcase their bold, colourful artworks. These artworks are the result of the studio's ongoing experimental research into geometric shapes and mathematic formulas as well as organic structures found in nature and mark making. Together with their intelligent conceptual colour language this defines the unique style of Kapitza's art.The publication of Kapitza's Geometric book in 2008 sparked a resurgence of geometric art in fashion, interiors and illustration, but the intelligence of their patterns and unique use of colour is unsurpassed.

Olle Eksell

Olle Eksell (1918-2007) is a graphic designer that typifies Sweden. He is also known as one of the first modern graphic designers on the Scandinavian Peninsula. He was not only an excellent designer and author, but he was also a grand visionary. This can be seen in his 1964 work "Design = Ekonomi," which introduces the important relationship between design and the economy with clear and elegant arguments. "Good design is not simply esthetic; it also plays an important role in the economy. Good design is not just cool, the truth is it is also incredibly sincere!" He participated in international exhibitions at New York's Modern Museum of Art, Paris' Louvre Museum, and the Venice Biennale. He was also active as a judge for international typography based in New York's International Center for Graphic Arts. In 1985 he was also nominated for the Sweden advertising industry's Platina Academy. In 2001 the Swedish government granted Olle Eksell the title of professor emeritus for his outstanding contributions to the field of design.
