Kapitza

Kapitza is the creative studio of sisters Petra and Nicole Kapitza, who share a passion for colour, patterns, mathematics and nature. The studio is collaborating with a wide range of international brands across the worlds of fashion, interiors, cosmetics, product design and publishing. Their clients include Comme des Garçons, Gucci, Clinique, USPS, TeNeues and IKEA. Kapitza have gained a global following for their innovative pattern art books which showcase their bold, colourful artworks. These artworks are the result of the studio's ongoing

experimental research into geometric shapes and mathematic formulas as well as organic structures found in nature and mark making. Together with their intelligent conceptual colour language this defines the unique style of Kapitza's art. The publication of Kapitza's Geometric book in 2008 sparked a resurgence of geometric art in fashion, interiors and illustration, but the intelligence of their patterns and unique use of colour is unsurpassed.

THE ORIGINAL MORRIS & Co

FOUNDED BY WILLIAM MORRIS IN 1861

William Morris

William Morris (1834-1896) William Morris, the great designer, poet, thinker and craftsman, was also known as the father of modern design in the latter part of 19th century in England. Morris found great values in the "pleasure of craft making" and the "beauty of natural materials," and this belief of his became a movement that spread throughout the world. Before long, it reached Japan in the Taisho period as a folk craft movement. About 120 years have passed since William Morris's death, however, the "belief" that he left has been inherited wholeheartedly and his excellent designs and styles survive to this day in Morris & Co.'s interior decor, along with an aesthetic strategy. It is created continuously and distributed around the world. It seems that his quote, "Have nothing in your house that you do not know to be useful or believe to be beautiful," is still meaningful to us living in the present day.
