LISA LARSON®

Born in 1931 in Härlunda, in the Småland region of Sweden. In 1949, she entered The Gothenburg Ceramic Art School at the age of 18, studying ceramics. In 1954, her graduation work at HDK School for Design and Crafts in Gothenburg was discovered by Stig Lindberg, which gave her the opportunity to work at Gustavsberg where Stig was working as the director of art. She played an important role in the start of the golden age of ceramics in Sweden. In 1979, she left Gustavsberg where she had stayed and worked as a main designer together with Stig Lindberg and Karin Björquist for 25 years. During her time at Gustavsberg, she created over 300 works of art. After leaving Gustavsberg, in 1980 she started to work actively on a freelance basis for companies such as Högånäs, DUKA and J Ceramic. In 1992 she returned to Gustavsberg and opened her own ceramics studio. The number of collectors of her work has seen a huge increase, not just in Sweden but around the world. She holds exhibits all over the world, and even now she continues to be active in creating. Lisa Larson is an older lady who is always thinking about what is the "cutest" in the world, and is a ceramic artist that is representative of Sweden. In a forest a little ways from the city center, she continues to create.

Olle Eksell

— eksell

Olle Eksell (1918-2007) is a graphic designer that typifies Sweden. He is also known as one of the first modern graphic designers on the Scandinavian Peninsula. He was not only an excellent designer and Scandinavian Peninsula. He was not only an excellent designer and author, but he was also a grand visionary. This can be seen in his 1964 work "Design = Ekonomi," which introduces the important relationship between design and the economy with clear and elegant arguments. "Good design is not simply esthetic; it also plays an important role in the economy. Good design is not just cool, the truth is it is also incredibly sincere!" He participated in international exhibitions at New York's Modern Museum of Art, Paris' Louvre Museum, and the Venice Biennale. He was also active as a judge for international typography based in New York's International Center for Graphic Arts. In 1985 he was also nominated for the Sweden advertising industry's Platina Academy. In 2001 the Swedish government granted Olle Eksell the title of professor emeritus for his outstanding contributions to the field of design.

THE ORIGINAL
MORRIS & Co

FOUNDED BY WILLIAM MORRIS IN 1861

William Morris (1834 - 1896)

William Morris, the great designer, poet, thinker and craftsman, was also known as the father of modern design in the latter part of 19th century in England. Morris found great values in the "pleasure of craft making" and the "beauty of natural materials," and this belief of his became a movement that spread throughout the world. Before long, it reached Japan in the Taisho period as a folk craft movement. About 120 years have passed since William Morris's death, however, the "belief" that he left has been inherited wholeheartedly and his excellent designs and styles survive to this day in Morris & Co.'s interior decor, along with an aesthetic strategy. It is created continuously and distributed around the world. It seems that his quote, "Have nothing in your house that you do not know to be useful or believe to be beautiful," is still meaningful to us living in the present day.
